Intim gel sa propolisom

Sastojci/Ingredients: Aqua, Glycerin, Poloxamer 407, Propolis, Calendula Officinalis Oil, Achillea Millefolium Extract, TocopherylAcetate, Lactic Acid, Sodium Benzoate, Disodium EDTA

SRB MNE BIH

Delovanje: Propovag® Intim gel je formulisan na bazi propolisa, nevena i hajdučke trave, sastojaka koji se tradicionalno koriste u cilju zaštite sluzokože od mogućih infekcija.

Primenom Propovag® Intim gela ublažavaju se neprijatne tegobe kao što su pojačan sekret, svrab, peckanje i nadraženost vaginalne sluzokože. Bioadhezivna gel podloga ima epitelizirajući efekat i omogućava postepeno i kontinuirano oslobađanje aktivnih sastojaka intim gela na mestu primene. Istovremeno ova podloga omogućava bolju adheziju, vezivanje delujućih supstanci na sluzokoži.

Propovag® Intim gel se preporučuje:

- ✓ osobama sklonim infekcijama intimne regije
- ✓ kao pomoć kod upalnih procesa vaginalne sluzokože i infekcija praćenih pojačanim sekretom
- ✓ ženama koje koriste kontraceptivna sredstva
- ✓ preventivno u sezoni kupaćih kostima, javnih kupališta, korišćenja ležaljki

Način upotrebe: Aplikovati vaginalno, uveče pred spavanje, u ležećem položaju. Nakon otvaranja tube i navijanja aplikatora, blagim pritiskom istisnuti 2 cm gela (doza za jednu aplikaciju) duboko u vaginu. Količina gela u tubi je dovoljna za 5 aplikacija.

Upozorenja: Samo za spoljašnju upotrebu. Ne preporučuje se primena preparata u slučaju preosetljivosti na neki od sastojaka. Trudnicama se ne preporučuje primena gela. Čuvati van domašaja dece.

Način čuvanja: Čuvati na tamnom mestu, na temperaturi do 25°C.

Upotrebljivo do: 48 meseci od datuma proizvodnje.

Datum proizvodnje je sadržan u serijskom broju utisnutom na varu tube i odštampan je na kutiji.

Pakovanje: Tuba sa 20 ml gela u kutiji sa dva aplikatora. Drugi aplikator je priložen kao rezervni, u slučaju gubitka ili oštećenja.

Method of action: Propovag® Intim gel is formulated on the basis of propolis, pot marigold and yarrow, plants that are traditionally used as natural antifungal agents in order to protect the mucous membrane from potential infections. The application of Propovag® Intim gel alleviates unpleasant ailments such as increased secretion, itching, tingling and irritation of the vaginal mucosa. The bioadhesive gel base has an epithelializing effect and enables a gradual and continuous release of the active ingredients of the intimate gel at the site of application. Meanwhile, this base of the product enables better adhesion and binding of active substances onto the mucous membrane.

Propovag® Intim gel is recommended for:

- ✓ Those prone to infections of the intimate region
- ✓ Use as an aid in combating inflammatory processes of the vaginal mucosa and infections accompanied by increased secretion
- ✓ Women who use contraceptives
- ✓ Preventative use during swimsuit season, when partaking in public bathing or using deck chairs

Instructions for use: Apply vaginally, in the evening before sleeping, while in a horizontal position. After opening the tube and screwing on the applicator, squeeze out 2 cm (dose for one application) of gel using gentle pressure. One tube has enough gel for 5 applications.

Warnings: For external use only. Not recommended for application in cases of hypersensitivity to any of the ingredients. Not recommended for persons who are pregnant. Keep out of reach of children.

Storage conditions: Store in a dark place, at a temperature below 25°C.

Expiry date: 48 months from the date of manufacture. The date of manufacture is contained in the serial number imprinted on the weld of the tube and printed on the box.

Packaging: Tube with 20ml of gel in a box containing two applicators. The second applicator is included as a spare, in case of loss or damage.

Manufacturer: Esensa d.o.o., Viline vode bb, Belgrade, Republic of Serbia

Country of origin: Republic of Serbia
